### Dear Homeowner

As an incentive, you can provide us with measurements of the ceiling area that requires insulation. After supplying the actual measurement, browse through the checklist by marking the box which is relevant for your installation. By sending us this information we will be able to price accordingly before scheduling the installation (*Terms and Conditions Apply*).

**Actual coverage area requiring insulation -**

| <b>Ducting</b>            | Yes <input type="checkbox"/>  | No <input type="checkbox"/>         |                               |

The recommended minimum added R-value of insulation for the Durban region is between 2.17 and 2.29. A Fibre Glass blanket with a minimum thickness of 100mm with R-value of 2.5 is deemed to satisfy your home's energy efficiency. A thickness of 135mm is available on request.

**Signed:** ..... **Date:** .....

Please indicate when you would like the installation to be done? .....  
Our office will be in contact before the actual installation should there be any more questions.
